

### **Human Growth and Development Instruction**

C-FC provides human growth and development instruction at most grade levels. Parents wishing to view an outline of the human growth and development curriculum used at their child's grade level to contact the school principal to obtain information on how they can inspect the actual curriculum and instructional materials. A parent may request in writing that their child be exempt from a human growth and development program or specified subjects within the program. However, students will still receive instruction in subjects under section 118.(2)(d)2c of the state statutes (knowledge of physiology, hygiene, sanitation, controlled substances, alcohol, diseases and proper care of the body.) Letters to request exemption should be sent to the principal.
